BEIJING HUATENG RUBBER PLASTIC & LATEX PRODUCTS CO., LTD

Our company owns registered funds of 100 million RMB and fixed assets of 258 million RMB. Our annual sales are more than 600 million RMB.

In the last few years, sales of the latex household gloves have increased rapidly. Our annual production capacity reaches 100 million pairs and we sell to our whole country-China and export to over 40 countries and areas including U.S.A, Japan, Germany, U.K, Italy and some other countries in South America, North America, Europe Asia, Oceania and so on.

We have also developed Nitrile protective gloves, Neoprene protective gloves and Neoprene/Latex bicolor gloves, which are welcome for their excellent cold resistance, oil resistance and organic solvent resistance. In addition, the international customers extensively accepted the Neoprene/Latex bicolor glove since its introduction in the market. It is as soft and comfortable as the standard latex household gloves and additionally it has as good oil resistance as the synthetic rubber gloves.

At the same time, we supply different types of working gloves, protective gloves and galoshes to domestic and international markets.

Our motto is "Satisfying the customers to the full content is the start and target of our quality control project". We are confident of marking our company as the leading rubber and latex manufacture and setting a positive sample domestically.
